

Year One

Dear Parents,

The children have had a great first full week. They have completed tasks set with great enthusiasm. We hope that you have all received your child's new reading books.

There has been a change in PE slots for **Foxglove Class** and they will be having indoor PE on **Wednesday** instead of Friday.

English

The children have enjoyed talking about their toy to the whole class. They have worked hard on their listening skills and paid respect to the person talking by sitting nicely and not interrupting them when they spoke. The children also asked many thoughtful questions.

Talking Point ... Ask your parents or grandparents to tell you about the toys that they played with when they were young. What materials were they made from?

Maths

In Maths we have been looking at ordering numbers and counting on from a given number. The children have completed many hands-on activities such as number puzzles, finding the missing numbers on a hundred square, threading numbers using paper plates and working on number/object correlation.

Topic

In Science this week we have looked at different materials. We have named them and grouped them into different categories as well as looking at their properties. We have also discussed the material that their own toy is made of.

*This week we will be sending your child's **Maths** and **Science** book to be covered in tacky back plastic. Please can you bring them back to school on Monday. Many thanks.*

Phonics

We have been looking and consolidating initial sounds and have been revising and learning new digraphs.

Plea for helpers to tidy the KS1 library. We will need 1 parent from each class to come on Friday 22nd September from 9am. Please let your TA or class teacher know if you are willing to help! Many thanks, KS1.
