

Year 5

Dear Parents & Carers,

We are delighted to welcome Mrs Naik back. Both she and Mr Gardner have had a thorough handover for Lime class. We hope to be seeing him around school in the future.

In Maths we have been developing our multiplication skills further by applying them to word problems. Good knowledge of times tables has proved invaluable during this week.

We have been measuring forces with newton meters and learning more about gravity in space.

In English we have started activities exploring a text set in Victorian Britain, called Street Child. We are preparing to retell an extract from it.

FERNSPEAK POETRY

There are very few entrants for the poetry category in Y5. We would like to encourage more of our children to either learn a poem or even write one to perform at the event. It is a great opportunity for children to demonstrate different talents. If your child is interested, please encourage them to come forward and let us know.

Have a great weekend.

Year 5 team.

Homework Reminder

Cultural Diversity Project

To launch our R.E topic on 'The impact of birth on the lives of others' we would like the children to carry out research on the story and celebratory events around their birth. This could include details of special clothes, gifts, family, mementos and artefacts at ceremonies.

We would like the children to create an A4 poster, displaying a range of stories, pictures and facts that would inform others about their special time. We would like them to carry out the research in

School Journey Meeting

For parents wishing to have a little more information about the trip, we are holding a meeting on **Friday 17th November at 2:45pm**. If you are happy with information given to date there is no need to attend. A more in depth meeting will be held nearer the time.

Please let Mrs Naik know if you would like to attend.

the first instance and then put this together to create their poster, which is **due on Wednesday 22nd November**. Some children may wish to talk about their findings during the lessons following the deadline.

We will be starting our new D.T project on toys using a cam mechanism. If you have any pop up toys could you please send them in next week for us to have a look at?

Some examples are:
