

## Year Two

---

Dear Parents / Carers,

We have started preparing for our Christmas Concert. Please look out for a letter about your child's costume coming soon.

---

### English

We have been exploring the story of Lost and Found even further this week by creating some of our own ideas based on this book. We have created our own Arctic or storm scene and we have looked closely at the settings we will find in our stories. We finished the week by looking at model texts and next week we will start bringing our ideas together in a written story.

---

### Maths

In Math's, we have been continuing our learning with measuring and weight. We have been using grams to weigh objects around the classroom. We have also looked at problem solving and reasoning questions for measurement and weight.

---

### Topic

In Computing we have been learning about algorithms. We have planned instructions to get to different planets. Next week we will be testing out our instructions on beebots (programmable toys).

---

### Notices

Class assemblies will begin this half term. They are held between **14:45-15:15 on Tuesdays**. Please see the dates below.

**November 28<sup>th</sup>:** Clover Class
