

Year One

Dear Parents,

We have sent home the High Frequency Word wallets this week. Please practise these words with your children the next fortnight.

It would be very helpful if you could write a comment or sign your child's home school diary if you read with them so that we know to change their books.

We do not check your child's home school diary everyday, so if you have something important to tell your class teacher please let your TA know in the morning. Many thanks.

English

In English, we have started our new book called 'Beegu' by Alexis Deacon. We have been immersing ourselves in the text and we have focused on one picture, which will be the stimulus for our writing next week. We have been exploring contractions with the children (wasn't etc.), written sentences using all the punctuation that we have been working on and also performing some drama related to Beegu.

Maths

In Maths we have continued to look at subtraction. We have looked at number bonds and related subtraction facts (within 10). We have tried to work systematically to think about all the subtraction facts we know about a given number. We have also started looked and explored 2D shape.

Topic

We have been discussing Remembrance Day and talking about the importance of this event and we have made our own Poppy's in remembrance.

One child from each class throughout the year will take their class bear home over the weekend. Please make sure that the bear is returned by Tuesday. Many thanks.

Handwriting/Phonics

We have worked on the letters a, c, q, o and g

In phonics, we have worked on various digraph dependent on the class. These sounds have been ch, sh, th, ng, ay, ee, igh and the different ways of writing 'ai'
