
Weekly News –

Dear Parents / Carers,

It has been Anti- Bullying week this week. We have focused on friendship and how to be a better friend to each other. We have also discussed what bullying is and what to do if we are being bullied or if we see bullying happening. We are very lucky to have received free cinema tickets for the Kingston Odeon and we are excited for our trip this Monday. Thank you very much for all the parents who have offered to accompany us on this trip. You should now know if we need your help.

English

This week we have been authors! We have been writing our own versions of 'Lost and Found' by Oliver Jeffers. We have enjoyed writing vivid landscape descriptions using similes and expanded noun phrases. Our writing has been improved over the week by using new vocabulary and by including exclamation marks to express feelings.

Maths

In Maths, we have been handling data by creating tally charts, pictograms and bar charts from data we have collected. We have been finding out our preferences of fruit and colours and have displayed our findings on a pictogram. We have then decided ourselves what data we would like to analyse within the class. We also observed how busy Richmond Road gets when counting the different vehicles on the road within 20 minutes.

Topic

We have furthered our knowledge of animal classification by sorting animals into their different vertebrate groups or invertebrate groups. In geography and history, we have been learning the route that Captain Scott took in the Terra Nova on his journey to the Antarctic in 1910.

Year Two

Notices

- We have given out the lines for the Christmas concert, please practise these with your child at home. Everyone has a speaking line.
