

Year Two

Dear Parents / Carers,

We've had a lovely week in year 2 this week and the children have continued their effort and hard work.

English

This week we have been immersing ourselves in a book called 'The Bear and the Piano' by David Litchfield. We have enjoyed making predictions about what might happen next in the story. We have been extending our descriptive writing by writing expanded noun phrases. We have worked hard to use a range on conjunctions to extend our sentences.

Maths

We have been consolidating our knowledge of addition this week and learning how to add two 2 digit numbers using a number line. We have also been adding three one digit numbers and three two digit numbers.

Topic

We have had lots of fun creating our collages in the style of Kurt Schwitter. We have also been developing our predicting and observing skills in science. We made predictions about what happened if we added oil to water. We then predicted what would happen if we added a vitamin C tablet. This was very exciting as it then created a larva lamp effect! In assembly and Re we have also been learning about how Holi festival is celebrated.
