

## Year 4

---

Dear Parents & Carers,

First of all, thank you very much for your support and all your kind comments about our performances this week. The children have worked very hard and I think they have done us proud! We would all like to say a massive 'well done' to every child involved.

After the holiday, we will have our Science & DT Day. This will involve the children using the electrical knowledge they learned last term as well as their design skills. **We need those shoe boxes you have put aside for us, please send one in with your child by Thursday 19<sup>th</sup> April. Thanks.**

**Happy Easter!**

Year 4 Team

---

### **Homework:**

#### Times Tables / Spelling / Reading

The holidays are a great opportunity to share a book with your child. Why not visit your local library and choose one from the 100 Book Challenge list, which we sent home last week?

If you are going away during the holidays (or even if you stay at home), encourage your child to write a postcard for the class and send it to the school for us to share in the first week back.

For times tables, little and often works best! Please keep practising these for a short time every day. Don't forget the division facts!

We will be having a bit of a revision spelling test in the first week back, so have a look back through some of those tricky words from Spring Term.

### **Date Reminders**

#### Science/DT Day:

Friday 20<sup>th</sup> April

#### Swimming starts:

wc 23/4/18

(see separate letter)

### **Announcements**

**Please send in a shoebox  
after the Easter holiday.**
