

## Year 5

---

Dear Parents and Carers,

This week we have completed writing our letters in the role of Zoe from the story, Floodland. Please enjoy reading these whilst looking through the English Books this weekend. These are hot off the press and will be peer assessed next week. We would love to hear your comments about the writing and progress to date so please complete the slip in the book.

In maths we have revisited the key topic of decimals, with a particular focus on addition and subtraction. The maths books will be sent home next Friday.

Microsociety has been continuing; our civil servants and bankers have been elected. Business plans are now underway. Manufacturing and marketing will begin next week – please feel free to give your child any support and ideas with this.

Bikeability groups are being compiled by Mrs Monk who has had an overwhelming response. She is looking into extra courses for next year for children who were not selected this time round.

Have a good weekend in the sunshine,

Year 5 Team ☺

---

### Homework Reminder

**Research:** As part of Microsociety and Design and Technology, each class will be making savoury muffins. We would like the children to research recipes that will be popular, healthy, value for money and tasty (whilst being possible to make in school). Write out the recipe with a focus on handwriting and presentation.

**Mrs Fox's Maths Group:** Complete the sheets on translations.

**Ms James' Maths Group:** Please complete the maths sheets.

### Date Reminder

**June 26**

Kidzania Trip

**July 12**

Microsociety Assembly

---

### Announcements

Due to London public transport, there is a possibility that we will be a little late back on Tuesday from Kidzania. We hope that we will be no later than 3:45. We will inform the school office of any delays. Thank you for your patience.

If your child is selected for Bikeability they must have a helmet and a serviceable bike.
