

Year Two

Dear Parents / Carers,

We have had a wonderful week following on from our trip to West Wittering!

We have elected our School Council Representatives from each class. This should be an exciting responsibility for the children involved – well done to everyone elected!

English

This week we are writing a recount about our trip to the seaside.

Children are learning about nouns and adjectives to help make their writing more interesting!

Can children remember the features of the recount?

Maths

In Maths, we have continued looking at place value.

We started to look at the bar model and children have done really well in consolidating their learning on place value.

Topic

Following on from our trip to West Wittering we have had discussions about what we saw and are starting to think about common features a seaside has.

In Science, children are working in pairs to produce a poster of a living thing from the seaside. Children may wish to visit their local library this week to collate more information to add to their posters next week.

Notices

- Reading books have been changed this week, please remember to sign your child's reading record once you have heard them read so we know they can be changed.
- Please continue to read with your child as much as possible.
- School photos:
8th and 9th of October
(There will be no Indoor P.E. for Bracken and Clover that week)
