

Year One

Dear Parents and Carers

We have had a great week in Year 1; the children really enjoyed bringing in their toys from home and sharing them with the class. Thank you for covering their school books over the last two weeks!

English

In English this week we have continued to look at the story 'The Everywhere Bear'. We thought about all the places the Everywhere Bear may have been and wrote a postcode to our class explaining where he was and what he was doing. We were really impressed with the work the children have produced and the beautiful pictures they produced.

Maths

In Maths this week we have been looking at counting forwards and backwards and one more and one less. We have had a go at filling in the missing gaps on a number track and even putting a 100 square back together!

Topic

The children have thoroughly enjoyed sharing their toys from home. They had a chance to play with their toys with their friends before sharing their toy with the whole class, thinking about the materials it is made from. After we shared our toys, we took a photograph, labelled it and even wrote a sentence about it. Well done!

Phonics

In phonics, we have been reviewing *ar*, *or*, *u* and *ow*. Can you think of words with these sounds?

Can you have a go at writing them?
