

Year One

Dear Parents and Carers

Thank you to all the parents who came and helped with the library trip this week. The children enjoyed listening to a story and picking their own books to bring back to school. The books will be kept in school.

English

In English this week we have started our new book 'Beegu' by Alexis Deacon. The children have been immersing themselves in the story by doing drama, playground activities and sentence writing. We have also discussed and worked on spotting and reading contractions.

Maths

In Maths this week we have been looking at subtraction as take away. The children have solved calculations practically, using counters in order to move to more abstract number sentences. They have also created their own subtraction stories.

Home learning: Can you make your own subtraction story?

Topic

In Religious Education this week we have learnt about Diwali and created Rangoli patterns.

In Art we have been thinking about Remembrance Day and have created some beautiful poppies using red and black tissue paper.

In Science we have started our new topic on seasons and have thought about what happens in each season; we were really impressed with what the children thought of.
