

Zoolab

We had such a fantastic day on Monday when Anna from Zoolab joined us with her rainforest stories and her animal friends! Information and photos can be found on the school newsletter today! Well done Daisies, we were so proud of your behaviour!

Elmer

We were so excited that Elmer came to visit Daisy class this week and we had so much fun learning about colours, patterns and shapes with him. We even created our own patterned Elmer's too!

Daisy Clothing

We have a number of Daisy T-shirts and jumpers available to buy for a discounted price! Please see the Daisy Team if you are interested in purchasing.

Daisy Class

Next week

We will be introducing our first 'sound of the week' 's' for ssssssnake!

We will also be exploring rhyme with the help of lots of lovely books, songs and poems!

Colours and Patterns

The jungle is so full of bright and exciting colours and patterns! Some of us had a go at making repeating patterns similar to the tiger and zebra stripes! See if you can spot a repeating pattern when you are out and about or maybe have a go at making one yourself! (We used two alternating colours. You could extend your child by using three colours)

Jungle time!

Daisy Class has been transformed into a jungle as we creep, wade, stomp and hiss our way through this exciting topic! With the children, we designed and created the role play area, using their imaginative ideas to bring the theme to life!
