

Year 4

Dear Parents & Carers

This week we have started our new core text in English – Romeo and Juliet (the Tony Ross version). The children are completely riveted by this compelling story and are enjoying our immersion activities.

In Maths we are continuing with our topic of times tables. The children are discovering different ways to represent facts. They are also pattern spotting and looking for ways to work out unknown facts from ones they already know.

In Science, the children made a simple electrical circuit and were interested to discover what happened when they added extra cells and lamps.

Please could you check your child's PE kit bag. Some items of clothing in the Year Group have disappeared and they may have just ended up in the wrong bag. Many thanks.

Have a lovely weekend!

Year 4 Team ☺

Home Learning Reminder

This week's homework task is to find out all about an animal that lives in or near to a river. Remember to focus on how you want to present your information. Ask your child to think back to the learning we did last term on non-fiction writing. It may help! Remember the children need to bring their project work in for a mid-term check on **FRIDAY 30th NOVEMBER**.

If you require white A4 paper for the task, please ask your child to request this from their teacher.

Make sure your child is reading every day and whenever possible listen to them reading or discuss the book with them.

Spellings and times tables practice should also be happening regularly please.

Date Reminders

Thursday 29th November

Fern Speak Heats (for children who are participating).

Friday 7th December

Mufti Day in aid of PSA Tombola donations.
