

Year Two

Dear Parents / Carers

Thank you very much for all your effort with the Year 2 Cake Sale. We will keep you posted about how we spend the money raised.

English

This week we started a new unit of work on endangered animals. Rich discussions were had surrounding environmental issues that affect these animals. Classes will be writing a letter at the end of the unit to consolidate their learning.

Next week we will have a grammar focus reviewing all that we have learnt this term.

Maths

In Maths this week children have been learning to add 2 digit numbers using the partitioning method. The children have worked hard in partners and individually to solve problems involving addition. Next week we will be focusing on subtraction.

Topic

In Science this week we have been continuing our unit on living things and their habitats with a particular focus on adaptations. Children compared the polar and desert habitat and we had a good discussion around why certain animals thrive in certain conditions.

Notices

We have rehearsed our lines making sure we projected our voices in order for the audience to hear us clearly. We look forward those that can make it at our Christmas Production next Thursday 13th December at 9.15. Please remember if you haven't already brought in your costume to do so on Monday at the latest next week.

Thank you very much to all the parents who have volunteered to help on the Hansel and Gretel Trip. We will be keeping you up-to-date as soon as possible once we know the seat allocations.
