

Challenge:

Please keep practicing putting on shoes and socks and home.

Next Week

Next week we will be making our own dinosaur riddles. We will be learning 'ar' and 'or' in phonics. In maths we will be looking at

It will also be our last 'Teddy Tennis' session next week. The children have really enjoyed this and have learned lots of new skills.

Forest Fun

This week in Forest Fun we had a go at writing Chinese symbols using mud! We also worked as a team to make some dens. The children are enjoying using the mud kitchen to make all sorts of exciting dishes. Please remember to bring in wellies, hats scarves and gloves on 'Forest Fun' day. If you have any waterproof clothing you can bring these in too.

This week's sounds

We have looked at 'igh' as in 'night' and 'oa' as in boat. We had a go at writing words and sentences using these sounds and using our tricky words too!

Week ending
08/02/19

**Poppy, Bluebell and
Sunflower Class**

Fire station Trip

Next half term we are looking at 'People who help us.' We will be visiting the fire station on Friday 1st March between the times of 10.00-12.00. We will need some parent volunteers to walk with us, we will be sending the consent form home this Friday.

This week...

The children have really enjoyed learning about Chinese New Year. We have made Chinese lanterns and we have talked about how children in our class celebrate Chinese New Year. Alongside this we have been continuing with our topic on 'dinosaurs.'

Maths:

This week in Maths we have been looking at measurements. We have measured objects around the room in cm, and we have also had a go at measuring our friends.

Challenge:

What can your child measure around the house? Take pictures and record on Tapestry.

HALF TERM CHALLENGE - February 2018

Over half term, please spend time measuring with your child and record their mathematical learning on a piece of paper.

For example:

- Measuring toys/furniture in their bedroom
- Measuring and ordering shoes belonging to family members
- Measuring in the garden/park
- Measuring body parts

Please support your child to measure accurately using their hands, feet and tape measures- starting from 0. Feel free to be inventive and use other items as a unit of measure. We do not expect the children to record the activity themselves, however if they want to try writing numbers this is a good opportunity. We also welcome any photos of them measuring.

Thank you very much for your support,

Reception Team
