

Year One

Dear Parents and Carers

We hope you enjoyed the Arts Week exhibition. The children had great fun creating all of the different pieces and are rightly proud of their achievements. **Thank you to all the parents who have spoken to the teachers about helping on the trip to the library next week. If you are able to help please let us know.**

English

In English this week we have continued with the story Lila and the secret of the Rain. The children have acted out scenes from the story and described how they thought the character might be feeling. We have ordered the story and re-told it using actions. The children are beginning to understand the importance of water and the effects of drought.

Maths

In Maths this week we have been looking at related facts using the same three numbers to write four number sentences. We have matched twenty frames to number sentences, used the part whole model to find missing numbers and are starting to understand the commutative law of addition (numbers can be added in any order and still get the same answer).

Topic

On Tuesday it was Chinese New Year, we listened to an informative assembly about the festivities celebrated. We listened to a story about why the animals are linked to each year and even found out what we were the year of. We finished off by making our own Chinese lanterns.

Talking Point

Listen to the weather forecast each day this week – what is the temperature? Which day is the coldest? What weather words do they use? Perhaps you could keep a record!

Deputy Headteacher's Award

Cornflower

Shano

Rovinka

Foxglove

Zahraa
