

Year Two

Dear Parents / Carers,

The children thoroughly enjoyed the Great Fire of London workshop today. History was brought to life as we all joined in (including teachers!) acting out events leading up to the Great Fire including the plague. We also learnt what happened after the fire with the rebuilding of the city.

English

This week, we have been working on our reading comprehension skills. We have also continued to look at our new text 'A necklace of raindrops'. We described the beginning, middle and the ending of what we have read so far using coordinating and subordinating conjunctions.

Maths

In Mathematics we have been revising our multiplication and division skills and using these to solve problems.

Topic

In History, we gathered information from secondary sources to help us order the key events that took place during the Great Fire of London.

In Science, we set up a cress investigation and made predication base on our knowledge of what plants need to grow. Next week we will look carefully at the results and draw conclusions.

Notices

We still have a number of Bockett's Farm permission slips outstanding and we cannot take children with us if we do not receive them.

A reminder that school finishes at 3.20 for Key Stage 1.
