

Year Two

Dear Parents and Carers,

We hope children have had a good week!

As the colder weather approaches, a gentle reminder please that children need trousers and a sweatshirt for outdoor P.E. and an appropriate coat for playtimes.

Thank you, Year 2

English & Maths

In Maths, we have been practising number bonds to 20. It is important that all children have a secure understanding of these and also the related subtraction facts. For example: $16 + 4 = 20$, $4 + 16 = 20$, $20 - 16 = 4$ and $20 - 4 = 16$. This is known as the inverse.

In English, we have been studying a picture book called Flotsam by David Weisner. The children were encouraged to use their interpreting, and inference skills to study the illustrations in the book and write about what they saw and what might be happening. They are really enjoying this book.

Topic

Children produced some wonderful maps this week of West Wittering beach. We discussed a key, different OS symbols and what a birds eye view means. In Science, we produced some wonderful fact sheets on our sea mammals! Well done children – they were informative and well presented. A big well done to those children who brought in additional information which they shared with others.

Notices

Matheletics log-ins have been stuck in your child's reading record. Please continue to read with your child on a regular basis and make a note in their record.

A message from Mrs Seal: I am due to have my second child soon and will be commencing maternity leave next Wednesday the 9th of October. My last full day with Clover Class will be Tuesday the 8th of October. I wish them all the best for the rest of the academic year. They have been a pleasure to teach for this short time! Thank you and best wishes ☺
