

Year 4

Dear Parents & Carers,

This week in English we have completed our independent writing. It has been lovely to see some of the creative writing that the children have produced. We are looking forward to starting our new story of UG next week.

In Maths we have finished off rounding and have started to think about column addition. We have challenged ourselves to use concrete resources to represent exchanging. We have sent home the Maths books for you to have a look at. Please sign and return these on Monday.

In Science we have continued to think about condensation and evaporation with a focus on cloud formation and the water cycle. We looked at a 'Cloud in a Bottle' to help us to visualize the process.

We have continued immersing ourselves in the Stone Age and have started to create some cave paintings. We are looking forward to getting them up on display.

Have a lovely weekend.

Year 4 Team ☺

Date Reminders

Home learning in on the **11th of October**. Please only bring it in on this date and not before.

Announcements

Thank you for the milk cartons. We are fully stocked so no need to bring in anymore!

Boxes of tissues would be much appreciated.

We are looking for parent readers to start as soon as possible. Please let a class teacher know if you are interested.

Homework Reminder

This week, we would like the children to consolidate their learning on rounding by logging into mathletics. Have a look at the assignments that have been set. This is due in by the following Wednesday.

Please remember that reading is also part of weekly home learning. Your child should read every day, noting the page numbers they have read in their home school diaries. One or two comments about the book each week would be good!
