

Year 4

Dear Parents & Carers,

We have thoroughly enjoyed seeing the work that the children have been doing from the home learning grid. We had a fantastic morning of 'show and tell to consolidate' our learning of the Stone Age.

This week we have started reading Ug. The children have enjoyed using physical punctuation to help them with punctuating direct speech. We made some fronted adverbial wheels to get us thinking about using exciting sentence starters.

In Science we looked at the water cycle. Next week, we are planning to do an investigation into temperature.

We loved using the chrome books in History to research some Stone Age tools and we managed to finish off our cave painting in art, ready to go on display.

Have a lovely weekend.

Year 4 Team 😊

Homework Reminder

Please ensure that your child is reading every day. The non-negotiables from the homework grid should be done weekly.

Please check that your mathematics is up to date and that your child is practising what we have been learning in maths.

Date Reminders

Butser Farm 18th October

In school for 8.15am

Announcements

Our cake sale money will be going towards our DT project that we have in store for Science. Thank you for your valuable contributions.
