

Year One

Dear Parents and Carers,

We have been so impressed with the home learning that has been coming in this week. The children will present their home learning before the end of term. This week we really enjoyed the 'our bodies' workshop, we learnt some interesting facts and used different parts of our bodies to move around the room. We learnt how to keep healthy and the different parts of the eye! Cornflower Class have their forest fun session on Tuesday 22nd October please remember wellingtons and snacks.

Maths

In maths this week we have continued to look at the part whole model and developing our understanding of number bonds. We have started to look at number bonds to 10 by filling in a tens frame and using our fingers. E.g, 7 fingers down and 3 fingers up.

English

In English this week we have written our own version of the Gingerbread man story. We imagined what characters he might meet and drew our own pictures. We extended our sentences by adding a variety of adjectives.

Topic

In Science this week we completed some fun activities based on using our senses. We have guessed the flavor of the crisps, made our own collages and played guess the smell!

In history this week we have been discussing our family trees. We have talked about who lives in our home and extended members of our family.

Phonics: oy, ir, ew, ue
