

Zoolab

We had such a fantastic day on Friday when Zoolab joined us in Daisy Class with lots of animal friends and exciting creature stories! Don't forget to check Tapestry to see information and photos from our visit! Well done Daisies, we were so proud of your behaviour!

Home Challenge!

At home with a grown up, can you have a go at using scissors? Perhaps you could try cutting along a zigzag line or cutting around a simple picture? Make sure you are always sitting down in a safe place and with a grown up to help you.

All About Me

We finished off our All About Me topic this week by sharing some more of our home made 'All About Me' posters with the class. They look fantastic! We loved finding out all about lots of your favourite things and special moments. If you haven't made one with your child yet and would still like to add to our super display then please do!

Daisy Class

Fireworks

Inspired by Bonfire night, we got creative with fluorescent paint, glitter and glue to create our own firework pictures. We have also used shapes to make firework pictures in the maths area and chunky chalks outside on the ground to draw huge fireworks too!

Celebrations

We will be starting our new celebration topic next week and we will be thinking about the different celebrations that we share with our families. Don't forget to bring in any pictures of family celebrations for us to share with the class on Monday and display in the classroom!
