

Challenge:

Please keep practising putting on coats, gloves, shoes and socks at home.

This week's sounds

We revised 'oo' for book and loop, 'ar' for 'car' 'oa' as in 'boat and 'or' as in born. We had a go at writing words and sentences using these sounds and using our tricky words too!

Next half term

Next half term we will be learning about People who help us. We will be starting of our topic with a Clever Cogs visit on Thursday 27th Feb. We will be visiting the Fire Station on Thursday **26th March 2020 between the times of 10.00-12.00.**

We are very excited about this topic as we hope to have lots of parent visitors to share information about their jobs and how they help us.

This week...

We have been writing our own dinosaur riddles. We have also been thinking about Valentine's Day and what love means to us.

We have been talking about climate change and ways in which we can look after our planet.

Week ending
14/02/2020

**Poppy, Bluebell and
Sunflower Class**

Forest Fun

The children are really enjoying the Forest Fun sessions and we will be continuing this after half term.

If you visit the park, can you see if you can find some interesting sticks, logs, leaves and stones to scatter around our secret garden?

Maths:

This week in Maths we have been looking at addition and subtraction.

Challenge:

Can you do this at home? Eg. I have 3 fish fingers and you 5 - How many all together? Take pictures and record on Tapestry.

We just wanted to say a **big thank you** for all your support and time spent working with the children both at school and at home. We can see how much they have been practising their reading, writing, maths and key words at home.

HALF TERM CHALLENGE - February 2020

Over half term, please spend time measuring with your child and record their mathematical learning on a piece of paper.

For example:

- Measuring toys/furniture in their bedroom
- Measuring and ordering shoes belonging to family members
- Measuring how tall they are
- Measuring body parts

Please support your child to measure accurately using their hands, feet and tape measures- starting from 0. Feel free to be inventive and use other items as a unit of measure. We do not expect the children to record the activity themselves, however if they want to try writing numbers this is a good opportunity. We also welcome any photos of them measuring on Tapestry.

Thank you very much for your support,

Reception Team
