

Transport

We had such fun exploring our new topic this week. We looked at different types of transport and talked about where they travel (sea, road, sky, tracks). We enjoyed thinking about the different ways that we have travelled ourselves. We read lots of different transport books too!

Sound of the Week

Our new sound of the week this week is 'i'! We had so much fun thinking of different things starting with the 'i' sound. We used our looking eyes and listening ears to explore Daisy class and loved thinking about all the different words that begin with 'i' - iguana, igloo, invitation, ink. We had a go at writing the letter 'i'

Aeroplanes

We have had so much fun flying around in our role play aeroplane! We thought of different places that we would like to go, we came up with fab ideas, venturing all over the world and even hopping on our aeroplane to Sainsburys! We all took turns to climb aboard, to fly the plane and to prepare for take off!

Counting

We have been doing lots of number work and counting this week. We have been playing lots of counting games on the interactive whiteboard and have tried hard to recognise the number and count out the correct number of items touching each item as we count. Have a go at exploring numbers and doing some counting at home too.

30 hours funding

If your child attends full sessions in Daisy Class and you are eligible for the 30 hours funding then please make sure that you have renewed your code online. Please pass your new code on to the school office as soon as possible.
