

## Year Two

---

Dear Parents / Carers,

We have had another action-packed week in Year 2! We really enjoyed celebrating World Book Day. We were amazed by the range of costumes, enjoyed sharing our love of books and bouncing for them!

---

### English

This week, we have continued our work on our book 'Wild'. We tried to find all the important features we need to include in our own writing before starting to write our own recount as if we were the little girl. We were focusing on writing in the past tense, using new, interesting vocabulary and the first person (I).

---

### Maths

This week, we have completed our learning about fractions. We looked at the equivalence of  $\frac{1}{2}$  and  $\frac{2}{4}$ s. We also did some problem solving with fractions where we were learning to see the pattern of counting in fractions. Next week we will be revising our arithmetic skills.

---

### Topic

In Geography this week, we have been considering why Richmond Park is protected. We used aerial maps to look at the physical and human features and draw our own maps of Isabella Plantation.

In Science we looked at specific habitats for British wildlife e.g. badger – sett, fox – den and squirrel – drey etc.

---

### Notices

Please ensure that your children only bring in the essential items to school e.g. book bag, reading book and record, spelling journal and water bottle. To ensure our reading books are not damaged, please carry water bottles separately. Thank you.
