

Year 4

Dear Parents & Carers,

This week we have started our topic of fractions in maths recapping our understanding of unit fractions and equivalents. We have used lots of practical resources to help us visualise just what fractions are.

We have completed our independent writing on Secrets of a Sun King and are looking forward to starting our new story about Thor's hammer next week.

The children have coped very well with the different assessments we have undertaken this week. These will help to inform our discussions at the upcoming parent consultations.

In geography, we have started learning about the journey of a river by thinking about key physical features. In science, we started our work on living things and their habitats by classifying vertebrates and invertebrates.

Year 4 Team 😊

Homework Reminder

Home learning grid for Spring 2 will be available on the school website. Whilst the enrichment activities are focused on rivers, please remember to keep up with the non-negotiables.

Due to our production rehearsals, we have a limited time to teach spellings this half term. Please could you ensure that your children not only learn their weekly spellings but understand the rules. Also, it would be great for them to recap previously taught rules.

Date Reminders

18th & 19th March

Parent Consultations

20th March

Mum's Breakfast

Year 4 Cake Sale

Announcements

Please return your consents for the trip to Thames Explorers at Kew Riverside.
