

## Year Two

Dear Parents / Carers,

Thank you for all your support and kind words during this strange week. It has been great to see the children that were still attending school and we hope all the others are well.

Events have caught up with us before we could announce the sad news that Mrs Farr is moving on to a new school after Easter. She has worked across early years and KS1 for many years, but more recently has been our valued colleague in Year 2. Children and adults will hugely miss her. We wish her all the best in her new school.

### English

This week, we started looking at our new text "Fantastic Mr Fox". We have discussed the characters we have met so far and written descriptive sentences using adjectives about the farmers and Mr Fox. The children also rehearsed persuasive sentences explaining why Mr Fox should be spared!

### Maths

In Maths, we have been practising our arithmetic and reasoning skills. We have also started to focus on time looking at half past and quarter past/to. Please continue to practise telling the time.

### Topic

In Geography, we have continued learning about habitats and Richmond Park and the children had a great time planning and making their 3D maps of the Isabella Plantation.

In Science we explored the Secret Garden to see what minibeasts live there. The children found several different species and thoroughly enjoyed themselves. Ask your child what they discovered!

### Notices

If your child has not been in school, we have put their PE Kit and any other personal items in a labelled bag. You will receive instructions via Parent Pay about how and when to collect them.

When you receive your Parent Consultation Feedback slip via ParentPay, it will include a new log in for each child for Google Classroom so please look out for it.

We hope you enjoy  
the extended break  
and wish you a  
Happy Easter!

The Year 2 Team
