

## Year 4

---

Dear Parents and Carers,

We have had a great week and have been very impressed with the superb standard of writing in English. Well done!

---

### English

The children have been rewriting part of the 'Varmints' story. They have worked really hard to include adverbials and personification to create a shift in atmosphere between paragraphs.

### Maths

We started looking at number values in context. We spent time investigating what '1000' looks like in different units of measurement.

### Foundation Subjects

In science we went to the pond and looked for living organisms. We recorded what we found using a classification diagram of our choice.

In Topic, we learnt all about the water cycle and the continuous nature of it.

---

### Notices & Reminders

Children should now have received their **home-school notebook**, please listen to your child read and sign the notebook weekly. Children should be reading daily and with an adult most days. This should all be recorded in their home-school notebooks which are checked weekly by their teacher.

Please ensure your child has a **healthy snack** for break time: fruit or cereal bars but please no chocolate, sweets or crisps!

PE kits must be worn on a Wednesday. They should wear **school uniform PE kit**, not their own clothes - some children look like they are dressed for a mufti day. Please avoid branded sportswear with logos. Thank you.
