

Year 1

Dear Parents and Carers,

Another full week in Year 1! The children have risen to the learning challenges and are back into the swing of school routines. We are very proud of how resilient they have all been so far.

English:

In English this week we have explored our senses and written our own poems using alliteration and adjectives. The children have tasted and described different fruits as well as sketching them. We have focused on the story of Christopher Nibble linked to our topic of 'Plants'.

Talking point - what new food did Christopher Nibble try this week?

Maths

In Maths this week we have looked at length, weight, counting objects and comparing them. The children have thought about how many objects are in a group, matching the correct number with the corresponding amount. We have also looked at comparing lengths and weights, using everyday objects.

Foundation Subjects

In Geography this week we have looked at what buildings are in our local area. The children drew simple maps and created 3D buildings. In Science the children continued to look at trees and plants. During a walk around the school grounds each class "adopted" five trees to study over the course of the year to see how they change.

Notices & Reminders

We would be grateful if you could please send in any junk modelling objects (cereal boxes, toilet roll holders, plastic bottles etc.) as we are always in need!

Now the weather has changed, please could you remember to send a coat in with your child.

Values Award

Cornflower: Mohid & Harriet; **Foxglove:** Juan & Caitlin; **Lavender:** Vaughan & Mariana

Diamond Work Award

Cornflower: Vikhram & Antonios; **Foxglove:** Mathias & Abdullah; **Lavender:** Alisa & George
