

## Year 5

---

Dear Parents and Carers,

This week we have had another busy one! The children are still working really hard despite the stresses and strains of lockdown.

Could you please ensure that your child has a warm waterproof coat with them every day? We are keen to allow the children to continue their play times outside, even when it is slightly drizzly, so they require a coat every day. Thanks.

We would also ask that you help us by ensuring that your child (or their sibling) is **not** on their bike or scooter whilst on the school premises. It is busy at drop off and pick up and cycling or scooting around at this time is dangerous. Thanks.

Have a lovely weekend!

---

### English

We are continuing with our work on non-chronological reports linked to our science topic on the Solar System. We have written our drafts, edited and peer-marked them. We are now publishing them.

### Maths

We are continuing to explore tenths, hundredths and thousandths and this week we are adding and subtracting decimals with up to 3 decimal places.

### Foundation Subjects

The children are very engaged in our science topic on the Earth, Sun and Moon. This week we have been investigating the phases of the Moon. We have been exploring different maps of the UK in Geography and places of interest around the country.

---

### Notices & Reminders

We have set some additional Mathletics tasks on decimals to keep the children busy at home. Some children have also not yet completed previous tasks. Please encourage your children to login and have a go.
