

Year 4

Dear Parents and Carers,

We have had another great week in Year 4, working hard across the curriculum. As we prepare for the end of term and Christmas, we look forward to some festive themed activities. Have a lovely Christmas break!

English

In English we have continued using our book 'How to Live Forever'. We have been writing our own endings for the story, coming up with imaginative ideas for what would happen if the character opened the book. We have focused on drafting our stories first, including editing before then publishing them neatly.

Maths

In maths children have been learning about multiplying and dividing by 100. We have been looking at how zero is used as a placeholder and focusing on using our place value grids to reinforce understanding. Additionally, we have been working on mastery problems to stretch our thinking.

Foundation Subjects

We have continued to learn about the Ancient Greeks and have finished our focus on Greek temples by evaluating how effective our designing and building actually was.

Notices & Reminders

Christmas song - We have performed and recorded our songs after all our hard work with practising and rehearsals. Amazing job by everyone 😊

Please could you check and restock your children's pencil cases over the Christmas holidays, particularly with pencils and whiteboard pens. All stationery items should ideally be named.

Diamond Work Award

Chestnut: Kayden and Victoria **Larch:** Ian and Maham **Yew:** Isha and Oliver
