

Year 4

Dear Parents and Carers,

It has been lovely to see the hard work and enthusiasm towards their learning that the children have continued to show this week. Next week is our final week before the half term break and we would like to remind children to bring in their home learning which they have completed from the grid posted on the Google Classroom.

English

In English, we have been writing a persuasive letter to a tea company about the merits of Fairtrade.

Maths

In maths, we have been learning about the composition of mixed numbers to help us convert them into improper fractions. We have linked our knowledge about division by grouping to convert improper fractions back into mixed numbers.

Foundation Subjects

This week in science, we have been thinking about safety in relation to electricity. In DT, we have finished decorating our boxes and built the electrical circuit to go into our buzz wire game. We have continued learning about Islam in our RE lessons and this week we have focused on the features of a mosque.

Notices & Reminders

All children should now have a login for 'Times tables Rock Stars' in their Home School Notebook. Please encourage children to log in and play. Times tables should be practiced weekly.

Please ensure that children are learning their spellings weekly - the weekly overview is on the Google Classroom. For handwriting, we would recommend that your child buys a dark blue friction pen if they have a pen licence.

Please note that this half-term's home learning grid can be found on the website and on the Google Classroom and needs to be brought into school next week.
