

Year 6

Dear Parents and Carers,

Phew - it's been a scorcher this week! On Tuesday, all the classes took part in a fantastic Macbeth drama workshop. It was a really great way to round off our English topic and the children's participation was wonderful to see. It was great to have some fun during an intensive week of heat and assessments.

English

The children have all been writing a persuasive argument to stop the destruction of the world's forests. We have been focusing on making our intent as negative as possible with lots of emotive and well chosen language.

Maths

Our maths time has been taken up with assessments this week - back to normal next week with some work around statistics.

Foundation Subjects

In geography we have been looking at the causes and impact of climate change. This is very topical at the moment so please look out for appropriate news articles and programmes that you could share/watch with your children. In science, we learnt all about bacteria as a way of starting our topic of microorganisms. Why not ask your child to impress you with an interesting fact that they have learnt?

Notices & Reminders

- Please remember to return the consent forms for Dragon Boats at Albany Outdoors.
- We will be having a Sports' Day afternoon on Monday 28th June. The children may come into school in PE kit and a t-shirt of their house colour. Hampton = **RED**, Kingston = **YELLOW**, Coombe = **BLUE** and Richmond = **Green**
- Details of how to order a Leavers' Book have been sent out, but here is a copy of the link:
<https://allyearbooks.co.uk/buy/14194>

The cost is £16 and orders must be received and paid for by Friday June 25th.

Diamond Work Award

Elder: Richard

Oak :Kai and Max

Willow: Wan Ying and Tom
