

*Silent*

**FILM  
CLUB**

**SUMMER TERM**

Come join **Buster Keaton** and **Charlie Chaplin** on a journey of inventive film making, slapstick humour and creative discipline. Watch, critique and review Keaton & Chaplin films at home, compose and perform beautiful soundtracks to replace dialogue and design slates with titles explaining scene changes that carry the viewer towards the film's conclusion. Learn to make films whilst having fun, see your films shown at International Film Festivals and in amazing screening venues. Have your name up in lights as the curtain closes. All of this under the stewardship of award winning filmmakers, artists and musicians. This isn't just an after school club, this is an amazing opportunity with memories to last a lifetime.
